Wolfe House and Building Movers, LLC
10 Birch Lane
Bernville, PA 19506

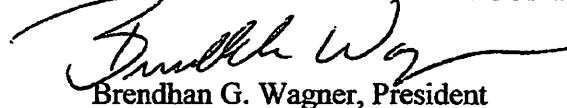

To whom it may concern:

On June 24, 2016, Wolfe House and Building Movers LLC moved the historic CedarValley Seminary for us in Osage Iowa. The Seminary building is a 160-year-old 2 story brick masonry building that was moved approximately 2 city blocks and was set over a new foundation. The final estimated weight of the building was 520 -540 tons. The building was lifted and moved using Wolfe's patented Buckingham Lift and Dolly system. The move was done on time and on budget.

The Cedar Valley Seminary Foundation and Wagner Construction Company were more than pleased with the professionalism shown by Wolfe throughout the lifting and moving process. We would highly recommend them to anyone.

Respectfully submitted,

WAGNER CONSTRUCTION COMPANY

Brendhan G. Wagner, President
